

## the olympic games

The olympic games as we know them are an international sports festival. The games originated as a way for the ancient greeks to salute their gods, but the modern games salute the athletic talents of citizens of all nations. The olympic games occur every four years and consist of both summer and winter events. The summer games are scheduled for 2000, 2004, 2008, and so on, while the winter games will take place in 2002, 2006, 2010, and so on. Standard events in the summer games include basketball, boxing, gymnastics, soccer, swimming, track and field, and many other sports. Winter game highlights include ice hockey, figure skating, skiing, and bobsledding. In recent years, extensive television coverage of the olympic games has brought them to millions of viewers all over the world, making household names out of such olympic greats as swimmer michael phelps and short traker apolo anton ohno. As a world event with political undertones, the olympics have had their share of controversy. Nazi germany, for example, hosted the games in 1936 and used the event to propagandize its cause of aryan racial superiority. A black american track star jesse owens helped thwart those intentions by winning four gld medals and being mobbed by the public wherever he went in germany. In 1972, in munich, 11 israeli athletes were murdered by palestinian terrorists, casting a pall over great performances by a number of athletes. The games have been boycotted and disrupted in other ways as well, but they are most memorable when they do what they set out to do: celebrate the athletes of all nathions through fair competition among the best from around the world.

This paragraph has 80 grammar corrections that need to be made. They can be punctuation or misspelled words.
